This is not happiness

If I give you everything and all the stars  
Would you feel alright?  
If I brought you wings to fly up to the sky  
Would you still be down?

But this is not happiness  
But this is mild happiness  
But this is not happiness  
At all, at all

It's a crazy game we play without a chance  
To win in the end  
We are chasing dreams and stars and confidence  
Until the end

But this is not happiness  
But this is mild happiness  
But this is not happiness  
At all, at all
