"Planet In The Ocean"

Visit "[Planet In The Ocean](#)" on MotoLyrics.com

Somebody told me there's a planet in the ocean
We call it love of the girl
But we don't wanna be the potion
It's such a savoury world
There's a planet in the ocean
They call it love of the girl
Such a commotion
Cos it's apparently curled

Chorus :

Dichotomy, It's all around me now
It's all around me now
I'll wait for you somewhere
Well there's a planet in the ocean
They call it love of the girl
Did you bring the suntan lotion
And the parasol furred
In the ocean
It's a terrible world
Careful with the axis
This planet's love of the girl

Repeat Chorus
