(V1):

I'm hotter than the sun, it's gon' be a scorcher
I got them B*** runnin from my team of stingin'
hornets
I'm tryna find my place like a group of lil orphans
And today might have sucked like a H** on the corner
All I see is red, but I aint s*** roses
We all in the picture, but we all got different poses
An like the 3 bears there aint no ginger in our porage
Cut the lights for tonight it will be light in the mornin'
Tryna make my dreams come true, so I'm workin all the
time
24-7, I call it overtime
It's like I'm stuck in park, time to put that s*** in
overdrive
Reverse, like the first time I wrote a rhyme

(Hookx2):

It's Louisi, everybody say Louisi
I'm makin' cake it gotta be my birthday It's Louisi
Everybody say Louisi
I'm makin' cake it gotta be my birthday

(V2):

I put my shades on, an my jays on
Got that Vinny cut, with the fade on
Man I'm lookin' sharp, gotta blade on
Hit the stage, an get my pay on
Single swag, I got them girls lookin'
I'm shootin' for the stars, astronauts dodgin' bullets
Sorry for the wait, but I gotta get it perfect
Rappin' in the mall, man I think this s*** is workin'
Skinny jeans and a mic, you can call it jerkin'
I'm writin' for dear life, till my hands hurtin'
Fingers start breakin', blood start squirtin'
Hands fell off, yeah I probably, obably need a surgeon
