I don't need to know why  
'Cause tomorrow I'll be fine  
I should learn to be still  
If I close my eyes  
I'll realize what you meant

Don't wait for the sun  
It could turn black any day  
I lost my hat in the clouds  
When will this haze go away?  
I never wanted this

Now it's all I've got  
Someone else is keeping time  
I think I'm falling apart  
If you were me  
Would you do it like I do?

Don't wait for the sun  
It could turn black any day  
I lost my hat in the clouds  
When will this haze go away?  
I never wanted this

Don't wait for the sun  
It could turn black any day  
I lost my hat in the clouds  
When will this haze go away?  
I never wanted this

So don't wait for the sun  
Don't wait for the sun  
Don't wait for the sun  
'Cause it could turn black any day

You're all that I wanted
