I don't need to know why
cause tomorrow I'll be fine
I should learn to be still
if I close my eye I'll realize what you meant

Don't wait for the sun
it could turn black any day
I lost my hat in the clouds
when will the haze go away
I never wanted this

Now it's all I've got
someone else is keeping time
I think I'm falling apart
if you were me would you do it like I do

Don't wait for the sun
it could turn black any day
I lost my hat in the clouds
when will the haze go away
I never wanted this

Don't wait for the sun
it could turn black any day
I lost my hat in the clouds
when will the haze go away
I never wanted this

So don't wait for the sun
don't wait for the sun
don't wait for the sun
it could turn black any day
you're all that I wanted
