I could hang around
You could let me down again
But it's killing me
I can't waste a sound again
You'll break me if you can
You'll break me if you can

Drag me down again
It's hard to be your scar
A frozen satellite
You never got that far
It's hard to be your scar
Be cool like you

Every sorry lie
I can't live that down, no
So you'll wait and see
I'm caught between the seam and me
And you'll break me if you can
You'll break me, break me if you can

Drag me down again
It's hard to be your scar
A frozen satellite
You never got that far
(Never got that far)
It's hard to be your scar
Be cool like you

I could hang around
You could let me down

Drag me down again
It's hard to be your scar
A frozen satellite
You never got that far
(Never got that far)

So drag me down again
It's hard to be your scar
A frozen satellite
You never got that far

(Never got that far)

Never got that far
(Never got that far)
Never got that far
