Monday morning and the coffee's on  
What happened to my perfect world?  
Front page news she's already gone  
Say hello to the goodbye girl  
L.A. traffic don't make it better  
I wonder if she read my letter  
9 to 5 keep it all alive  
Some days are hard to survive  
I feel so down about it

I don't wanna be alone just waiting by the phone  
I can't stand another night on my own with a new day  
rising, realizing  
That you gotta be free break it down to you and me  
Is it everything you want it to be?  
I wanted you all along, so where did we go wrong?

Never had a lot of money but we  
Spent a good time in the city  
Drinking wine and watching the tele  
Old movies she sure looked pretty  
This kitchen feels so alone  
Haven't cleaned since she's been gone  
Spend my nights at your favorite bar  
And I wonder just where you are  
I feel so down about it

I don't wanna be alone just waiting by the phone  
I can't stand another night on my own with a new day  
rising, realizing  
That you gotta be free break it down to you and me  
Is it everything you want it to be?  
I wanted you all along, so where did we go wrong?

I don't wanna turn back time  
I just wanna change your mind  
I just want a chance to prove to you  
I really wanna chase these clouds away  
Save them for a rainy day, there's nothing left to say

I don't wanna be alone just waiting by the phone  
I can't stand another night on my own with a new day

rising, realizing  
That you gotta be free break it down to you and me  
Is it everything you want it to be?  
I wanted you all along, so where did we go wrong?  
I wanted you all along, so where did we go wrong?  
I wanted you all along, so where did we go wrong?
