When life has no value, death has a price
Spread your wings of fear upon the unsuspecting
Ill drill, overkill - weapons of mass destruction
This is an act of war

Act of terror
Act of war

Fate of humans is directed by the madness reality
of the third war raging madmen

Act of terror
Act of war

Fate of humans is directed by the madness reality
of the third world war raging madmen

When life has no value, death has a price
