Scurvy, smallpox, syphilis, typhoid  
Starvation, laceration, mutilation, rape

Drums of the dead  
The beat's in your head

Born of prayers of a thousand dead souls  
Chained by fate down the abyss  
God in drum, protector of spirits  
Yearning for home so their bones rest in peace

Sorrow, anger, confusion, fear  
Branding, clubbing, drowning, death

Slave traders, death dealers  
Misinterpreters of right and wrong  
Vengeance from beyond the grave  
Will make you pray for death

Ancestors, forefathers  
Avengers of helpless souls  
Pound your justice upon our own  
Who sold their blood,  
Make them wish and pray for death
