Shouldn't tell you all I've got inside but I just need to
get it out
Let me say it if you don't mind
It's only you I think about

Mmmm when I see you I start smiling just want to hold
on tight
I know that must be love no doubt
That must be love no doubt

I can't sleep when all this spinnin' around
I need to figure out why this can be so hard for me
when it shouldn't be can't get you of my mind
It's only you I think about

Melody

I can't sleep when all this spinnin' around
I need to figure out why this can be so hard for me
when it shouldn't be can't get you of my mind
It's only you I think about
