"Will You Fade"

i'm finding missing you much deeper
i can feel the ice begin to crack
and then there were signs but chances
burning through me

and i grow dizzy
i am out of myself
can you feel it
always within yourself

will you fade now, should i let you
left with indifference, i remain
so much depends now on this distance
these things escape

well now i'm too dizzy
i am out of myself
can you feel it
too much within yourself

and i grow dizzy
i am out of myself
can you feel it
always within yourself

i grow dizzy
i am out of myself
can you feel it
always within yourself

and i grow dizzy
i am out of myself

la la la la la...
