"Up Off The Ground"

Visit "[Up Off The Ground](#)" on MotoLyrics.com

Take a step
Make a move
Cause my eyes are stuck on you
You're a queen
He's a fool
Girl, don't waste your time
I'm the king for you
If you let me take you away
We could ride first class into space
Don't go home
Don't go far
Will you show me who you are?
Up off the ground
Dancing on the moon
Got stars in your eyes when I look at you
All around
Zero gravity
Got no control when you pull on me
And I feel like we're falling in love
And I love what I'm feeling
Up off the ground
Dancing on the moon
Got stars in your eyes when I look at you
Look at me
Take a risk
Could be more than just another kiss
If you don't
How would you know
What it feels like to let go
If you let me take you away
We could ride first class into space
Don't go home
Don't go far
Will you show me who you are?

Up off the ground
Dancing on the moon
Got stars in your eyes when I look at you
All around
Zero gravity
Got no control when you pull on me

And I feel like we're falling in love
And I love what I'm feeling
Up off the ground
Dancing on the moon
Got stars in your eyes when I look at you
When I look at you
When I look at you
When I look at you
When I look at you
Up off the ground
And I feel like we're falling
And I feel like we're falling
And I feel
Up off the ground
Dancing on the moon
Got stars in your eyes when I look at you
All around
Zero gravity
Got no control when you pull on me
And I feel like we're falling in love
And I love what I'm feeling
Up off the ground
Dancing on the moon
Got stars in your eyes when I look at you
