

Love, Robot "Eleven Eleven"

Visit "[Eleven Eleven](#)" on MotoLyrics.com

When the day comes to an end
Stars fill the sky
Kiss the lids above your eyes
Sing you goodnight

You are the scent of autumn air
Wind that cools me
I am the summer in your hair
Warm and cozy

If there's one thing I know I can show you
What it means to be free but still hold you
So now the chills are running down my spine
And we will be needing to say goodbye
I'm here to stay so we can say goodnight

Close your eyes
Woah oh... I'll keep you warm
Close your eyes
Woah oh... oh...

You have the hands that hold my heart
Please be careful
'Cause it's been bruised and torn apart
And I can't handle

To be far for long
(You can play this song)
So you know I care
(When I can't be there)

When I get you to myself
I won't let go

If there's one thing I know can show you
What it means to be free but still hold you
So now the chills are running down my spine
And we will be needing to say goodbye
I'm here to stay so we can say goodnight

Close your eyes

Woah oh... I'll keep you warm
Close your eyes
Wooahhh oh... I'll keep you safe
Close your eyes
Woah oh... Protect your innocence
Close your eyes
Woah oh... oh...

I know you'll raise some questions
I know just how hard things can get
And when the waves come crashing down
I will not let them get you wet

Easy, you'll be safe
I am your way out
I know I was made
To be your lighthouse

Close your eyes
Woah oh... I'll keep you warm
Close your eyes
Woah oh... I'll keep you safe
Close your eyes
Woah oh... I'll give you butterflies
Close your eyes
Woah oh... oh...
