You can not escape
I'm bound to keep those eyes awake, -"
Do you love me still?

And if I find that you're asleep,
My hands will go for tickly feet
When you wake up I'm in heaven

Oh heavenly girl understand
and play along with this young man
'Cause I need it so

And could you love me even more
Though I been pretty bad before
When you wake up I'm in heaven
When you wake up I'm in heaven
Can't you see?

With the morning sun we can have some fun
I'm in love with you!
When the evening rain make me sad again
I feel lonely too
Do you love me? Do you care for me?

You work all day we play all night
That's what I want to do alright, -"
Could you love me still?

I know that she is slightly older
But that's no excuse I've told her:
Wake up, I'm in heaven
Can't you see?

With the morning sun we can have some fun
I'm in love with you!
When the evening rain make me sad again
I feel lonely too
Do you love me? Do you care for me?
