"Keep Your Love"

I lost my bag on the train
(Lost his bag now what a shame)
You lost your mind all the same
(Lost her mind now she's insane)
What can I do to get out?
Understand my doubt
(Do I have to shout?)

You can keep your love, You can keep your love
You can keep your love away from me
You can keep your love!

We've been around to caf  s
(Calls me twice now everyday)
And I don't know what to say
(Can't you see that I am gay?)
You stick to me like glue
Why won't you realize we're through
(Because I don't love you!)

You can keep your love, You can keep your love
You can keep your love away from me
You can keep your love!
