Oldfield

Stronger and stronger, brighter and brighter

Burns the flame day by day

Love will find the way to clearer skies

And everything your heart desires

The first light of the morning opens wide

A brand new page of life

And I feel my guiding star forever shining

This is my song, this is where I come from

This is the dream I'm dreaming

This is what I believe in

This is my song, this is where I come from

The song that rings through all creation

Is the song of celebration

This is my song

Stronger and stronger, warmer and wilder

Grows the love I feel for you

It comes shining through like softer skies

I can see my life within your eyes

And everything I've longed for I can find it

In the beating of my heart

You are my guiding star forever shining

This is my song, this is where I come from

This is the dream I'm dreaming

This is what I believe in

This is my song, this is where I come from

The song that rings through all creation

Is the song of celebration

This is my song

I love you says the morning

Sky and earth like lovers calling

Wherever the wind blows I will follow

In times of joy or times of sorrow

The song that rings through all creation

Is the song of celebration

I love you says the morning This is my song

Sky and earth this is where I come from

This is the dream I'm dreaming

This is what I believe in

I love you says the morning This is my song

Sky and earth this is where I come from

The song that rings through all creation

Is the song of celebration
This is my song
I love you says the morning This is my song
Sky and earth this is where I come from
This is the dream I'm dreaming
This is what I belie
