At the station, 4 minutes too late
Caught up and rived in, get on mind debate
Something I was, supposed to have ...
Said I was sorry, don't know what you go
Oho, don't know for sure if I'm in love no more

Who will want me if you leave me?
What can I do?
Won't you call me if you need me
Could I call you too? Oho, whoa

To be sheltered, afraid to be set
Apart in the future, and cherish the past
You said I'm forced, to ...here in ground
Maybe I worry, too much to be strong
Oho, don't know for sure if I'm in love no more

Who will want me if you leave me?
What can I do?
Won't you call me if you need me
Could I call you too? Oho, whoa

Who will want me if you leave me?
What can I do?
I just wonder if you see me,
That bothers my ...oho, whoa, oh.
