I'm getting these bucks girls like "awh shucks" and they blush
Face flush but it sucks and it's silly cause they like "so what?"
When it comes to the stuff that,
Really matters I get passed up and chucked,
Slap-shotted like a puck,
Into the gutter of the other good guys with the bad luck.

(Stutter) If there was a class for nice guys to win ha,
I guess I missed it.
I was probly busy scratchin at the urge to fit in yea,
I was itchin.
Now I'm sittin meditating and waiting for the day that
I've created
In my mind a thousand times and I'll keep trying till it's
right
Keep it fixed in my sights
Pull the trigger and deliver when God drops you in my
life.

Yea he'll place you in my life and I'll dedicate to you
everything I've got inside
Get creative and devise my,
Master plan to bring you higher and I'll spark your inner
fire
And I promise to grow better,
Every day,
Learn to love you in a million different ways
Make eyebrows raise as we, trail blaze,
Together we'll endure any weather and I'll fill pages
with love letters,
Just for you,
Take time on every word like I'm too dumb to solve two
plus two,
I'm drunk off you, got me sunk like a trunk in the Blue
Lagoon cause
This is paradise,
Got me thinkin that's quite the pair of eyes,
And you have a dozen lovely sides,
To your personality you're like a loaded pair of dice.

I'm paralyzed, starstruck lookin up you can see it in my
teary eyes I,
Can assure you they're tears of joy
You snuck right through the gates of my heart,
Call me Troy.

Yea, we'll create many memories
I'll savor each and every
And cherish them collectively
Don't know if we've met yet or when all this will start,
But when it does, I'll lead you through the dark.
