There is a place I like to go, in the spring, in the fall and  
in the snow  
There's lots of friendly people there and you don't have  
to bother to cut your hair  
The smokey mountains is the place to put a big smile  
on your face  
The trees are yellow, red and green, it's the prettiest  
place I've ever seen  
No telephones to blow your high, nothing but clean air  
in the sky  
I think that heaven must be near cause the angel's  
voices you can hear  
It is the natural habitat for people who know just where  
it's at  
Smokin' is their claim to fame and that's how the  
smokies got their name
