I have loved you
Only in my mind
But I know that there
will come a time
Feel this feelin'
I have inside
You're a hopeless romantic
is what they say
Fallin' in and out of love
Just like a play
Memorizing each line
I still dont know
What to say, what to say

* Dont know what to do
Whenever you are near
Dont know what to say
Mu heart is floating in tears
when you pass by I could fly
Every minute every second of the day
I dream of you in the most special way
You're beside me all the time
All the time

I have loved you and I always will
Call it crazy but
I know someday you'll feel
This feelin' I have for you inside
Im a hopeless romantic
I know I am
Memorized all the lines
and here I am
Strugglin' for words
I still don't know
What to say, what to say

Repeat *

All the time
