No nothing
No nothingÂ
No noothingÂ

No nothing
No nothingÂ
No noothing

No nothing
No nothing
No noothing

No nothing
No nothingÂ
No nothing
To run my fingers through your hair
Oh I wanna beÂ
Oh I wanna be in

Every little thing
Every little thingÂ
Every little thingÂ
Goes by too fastÂ
Every little thing
Every little thing and
Every little thingÂ
I want it to last
Longer than the afternoon sun
Loner thanÂ
Longer thanÂ
Longer thanÂ

Missed that chance
To wash my face
Forget about the thingsÂ
That I did wrongÂ
So I lay awake
Hear you breathe
And think about a million things
Think about a million things
Think about a million thingsÂ

Something holds it all back
Have a nack for staying good
Give me that look that you do
That you do
And I'll be out the doorÂ
And I'll be out the doorÂ
In a fewÂ
Out the doorÂ
Out the door
Out of the door

Everything it changes in the lightÂ
Everything it changes in the lightÂ
Everything changes in the lightÂ
Everything changes in the light
Everything changes in the light
Everything changes in the light
Everything
Everything
Everything
