(slam)
Sky high!

Born to be an angel, you would never surrender
(surrender)
lovely arms and hands to hold me, you make me warm,
girl (a lovely heart)
Just look and drive me crazy, and I could scream of
love
and pain-ai-ai baby, you light my fire

(slam)
Sky high!
Not a troop not a dream, it's a-real
Like a dangerous kite that you
sky high
It's a fantasy flight now and ever
In my love, in my heart, in my fire

(slam)
Sky high!
Not a group, not a dream, it's a-real

Sky high!!
It's a fantasy flight, now and ever
(slam)

Sky high!
