I still remember it was day number one  
We hit the ground and then we started to run  
Now we're connected and I won't turn around  
Cause you set me free, put my soul at ease

I just can't stop the feeling  
What you give is what I'm needing  
I just won't stop believing  
On and on it's only just begun

I'm feeling so alive  
Make it last forever  
Everyday is fine  
Whenever we're together  
I'm so alive  
And loving every minute  
Underneath the sky there's a heaven for you and I  
I feel so alive

Day number two and there's a difference in me  
We're getting closer baby spiritually  
I got this feeling it was just meant to be  
There's an energy between you and me yeah

I just can't stop the feeling  
What you give is what I'm needing  
I just won't stop believing  
On and on it's only just begun

I'm feeling so alive  
Make it last forever  
Everyday is fine  
Whenever we're together  
I'm so alive  
And loving every minute  
Underneath the sky there's a heaven for you and I

Like a waterfall coming down on me  
I can't go back cos I'm in too deep  
You make me see those things that I never seen  
You know the remedy, it's obvious to me

I'm feeling so alive  
Make it last forever  
Everyday is fine  
Whenever we're together  
I'm so alive  
And loving every minute  
Underneath the sky there's a heaven for you

I'm feeling so alive  
Make it last forever  
Everyday is fine  
Whenever we're together  
I'm so alive  
And loving every minute  
Underneath the sky there's a heaven for you and I
