Under a lovin sky gonna be with you  
and no ones gonna be around  
and if u think that u would fall  
well just wait untill till, the sun goes down

underneath the starlight, starlight  
theres a magical feeling so right  
it will steal ur heart tonight

u can try to resist  
try to hide from my kiss  
but u know but u know that u  
cant fight the moonlight deep  
in the dark youll surrender ur heart  
but u know but u know that u  
cant fight the moonlight nooooooooooooo  
you cant fight it  
u can tryyyyyyyyyyyyyyy-iii  
but u know that u cant fight the moonlight  
nooooooooooooooooooooo  
you cant fight it,  
its gonna get to ur heart
