Everybody's got something they have to leave behind
One regret from yesterday
that just seems to grow with time

There's no use looking back or wondering
How it could be now
Or might of been
Oh this i know but still i can't find find ways to let u
goooooooooo.
NO NO NO

I never had a dream come true
till the day that i found u
even though i pretend that i moved on
apart of me will always be
apart of me will always beeeeeeee withhhhhh
youuuuuuuuuuuuu.
