It's the same old story time and time again  
I listen for a while, than I do my own thing  
Lessons come and go like water through my hands  
Such a sweet intention but it always end

It's like I'm missing out  
On what life's all about  
But it's beyond a doubt

Chorus

It's undeniable, so incredible  
It's unfathomable how faithful You are  
It's unbelievable, so inconceivable  
When I'm not who You want me to be  
You still see the best in me

It's when I'm at my worst that You're at Your best  
Still chasing the whole world, but You've got one  
request  
Help me now to see that You're the one true love  
The God who knows my name, with You I overcome

The feeling like I'm missing out  
On what's life all about  
It's beyond a doubt

Chorus

It's undeniable, so incredible  
It's unfathomable how faithful You are  
It's unbelievable, so inconceivable  
When I'm not who You want me to be  
You still see the best in me

And it feels like sunshine crashing through the night  
Waking something deep inside  
It's like the morning dew when Your mercy is new  
It's like breathing for the first time
