"Make Tonight Last Forever"

Visit "[Make Tonight Last Forever](#)" on MotoLyrics.com

Hear alone on the beach, alone with the sea and the sand
The stars are all within reach, the world is ours to connect
While I'm holding you tight on this heavenly night
Every wave breaths the prayer that you'll always be here
With your hand all in mine and your lips close to mine
Make this dream never end, make tonight last forever
Make tonight last forever

We alone on the beach, alone with the sand and the sea
The kiss that I feel on my cheek that you are only the breeze
While I'm holding you tight on this heavenly night
I hear angels above sing a hymn to our love
With your hand all in mine and your lips close to mine
Make this dream never end, make tonight last forever
Make tonight last forever.
