Hoping for the answer to your  
Loving is what I'm after when we're  
Smiling I know I have your hand to hold

It's not right with  
It's not right with  
It's not right without you

Throwing ourselves against the world  
Hoping that we have it all

It's not right with  
It's not right with  
It's not right without you

It's not right with  
It's not right with  
It's not right without you

Throwing ourselves against the world  
Hoping that we have it all

Throwing ourselves against the world  
Hoping that we have it all
