So much for friendly conversation
Simple advice between friends
When you step between two lovers
They're steppin out, you're steppin in
Oh Lord ... here we go again
Hey! I'm in the middle, stuck here in the middle
Yea! I'm in the middle, I can't stand the middle
Hey! diddle diddle it sucks here in the middle
Yea! I'm in the middle, can't stand the middle
3 in the middle still leaves two on the outside
I'd rather be right white conservative or
Far left cult radical extreme
I never learned to keep my mouth shut
Just speak my mind every time
Can I lay it on the line?
Hey, I'm in the middle, I can't stand the middle
Yea! I'm in the middle, it sucks here in the middle
Hey! diddle diddle, I'm stuck in the middle
Yea! I'm in the middle, I can't stand the middle
3 in the middle still leaves two on the outside
Yea ... I can't stand the middle!
Yea! Yea!
Well this thing is killing me
I'm in the middle, it sucks here in the middle
I'm in the middle, I can't stand the middle
Hey! I'm in the middle, I can't stand the middle
Hey! I'm in the middle, stuck here in the middle
3 in the middle still leaves two on the outside
I'm in the middle, can't stand the middle
In the middle, I can't stand the middle
In the middle, I can't stand the middle
3 in the middle still leaves two on the outside
