Aahaa ahaa

I walk into the club like
everything is going my way (oohh)
I saw you and you saw me 2
And Now I'm searching for something to say (ohoo wo)

You're so beautifull
from your head to your quiticull? (I really mean it)
I thought that you should know
that i wanna spend the night (with you alone)
and she smile, she sad i really like your style
I sad how manny drinks will it take will I get you home
i wanna know baby

baby girl before the night is trough
Come to my afterpary baby, just me and you
tell me what you wanna doooo
tell me what you wanna doooo

This is the last call at the bar (ooh)
I'm searching for something to drink
i think that im searching, Trying to find you
and now im creeping up right behind you

You're so beautifull
from your head to your quiticull?
I thought that you should know
that i wanna spend the night (with you alone)
and she smile, she sad i really like your style
I sad how manny drinks will it take will i get you
home(you homeee)

[After Party Lyrics on]

baby girl before the night is trough
Come to my afterpary baby, just me and you
tell me what you wanna doooo
tell me what you wanna doooo

I cant tell just what you like girl
maybe you can spend the night girl
we'll see, no you don't have to walk away from me
to walk away , walk away
just find a way to stay (just say that you stay girl)
I'm getting tired of waiting
baby lets gooo

Aahaaa

I'm getting tired of waiting
baby lets goooooooooo

baby girl before the night is trough
Come to my afterpary baby, just me and you
tell me what you wanna doooo
tell me what you wanna doooo

baby girl before the night is trough
Come to my afterpary baby, just me and you
tell me what you wanna doooo
tell me what you wanna doooo
