Floatin' on a sea of mystery  
A driftaround came unknown  
But that China wind keeps callin' me  
It knows where I wanna go

Chorus:  
Oh China, I can hear you call  
China, I can hear you call

You see, I really don't have the choices  
My life is torn between lovin you and them  
So I pretend to chart my courses  
But I listen to that China wind

[Chorus]

Oh, China, ooh China, yeah China my friend  
You're a little wrapped up inside a mystery  
Yea, you are, China come again

And long, long ago I once had the power  
To levitate the world with just my will  
Yea, but I must gone wrong  
That feelin's long gone  
I belong to the China wind

[Chorus]

Oh, China, ooh China, yeah China my friend  
You're a little wrapped up inside a mystery  
Yea, you are, China come again  
Oh yeah!
