Baby do the right thing  
Choosing where when his thing  
When you're through we're fighting  
I'll be right here, so let me know  
Let me take you back home  
Take it to a new zone  
We can hit the right time  
So get your coat and we can go

[Chorus]

Don't, don't be so cold  
I know you're freezing  
Let me keep you warm  
Baby get in  
I just wanna take you someplace we can, we can lose  
control  
Baby I just, I just, I just, I just wanan slip you out of this  
and into something comfortable  
Baby I just, I just, I just, I just died,  
I wanna try,... the things over your mind  
Baby let it go, lose control lose control, lose control oh  
o  
Lose control, lose control

Since we got a head start, we don't have to try hard  
Chemistry's got that part  
I'll do the rest just let me know

[Chorus]

Don't, don't be so cold  
I know you're freezing  
Let me keep you warm  
Baby get in  
I just wanna take you someplace we can, we can lose  
control  
Baby I just, I just, I just, I just wanan slip you out of this  
and into something comfortable  
Baby I just, I just, I just, I just died,  
I wanna try,... the things over your mind  
Baby let it go, lose control lose control, lose control oh  
o

Lose control, lose control

I don't care how late we go just as long as we go

What comes easy, you can make a call

Baby

I just wanna take you someplace we can, we can lose control

Baby I just, I just, I just, I just wanna slip you out of this and into something comfortable

Baby I just, I just, I just, I just died,

I wanna try,... the things over your mind

Baby let it go, lose control lose control, lose control oh

o

Lose control, lose control
