Saved all money for this Saturday
Got all my work done on time
Well finally kid, nothing can stop us now
Coming rain or shine
Every sweet thing on the street corner
"Hey, can I give you a ride...?"
Were just cruisin' and boozin'
Trying to have a good time
That's right, baby
Cruisin' and boozin'
Out with some friends of mine.
Someday, I'm gonna beat this race
Be on top, you'll see.
Step myself out across that line
And be anything I wanna be.
But right now, everything's alright
Out here in the streets.
We've got JD in the back seat
We drink nothin' but the best.
Pop a buck in the gas tank,
We drink up the rest
Yeah, we'll drink up the rest!
