You breathe so hard; come on, bother me.
Fill me up with ecstasy.
It's all about control, bein' satisfied.
I need some help; don't be leavin' me...
You're leavin' me...
High and dry again;
I don't wanna be high and dry again.
So put it where you want it, baby, and I will come along.
Call out my name, wanna hear you moan.
To cry out loud, don't be ashamed;
Now that you came, don't be leavin' me ...you're leavin,
me.
Don't be leavin' me...
High and dry again;
Don't you leave me high and dry again.
I don't wanna be high and dry again.
Don't
Don't you leave me high...
You breathe so hard, come on talk to me.
Take me there, oh yeah, but don't be leavin' me.
Put it where you want it baby, you know I will come
along.
Cry out loud, call my name, hear you moan.
High and dry again;
Don't you leave me high and dry again.
I don't wanna be high and dry again.
