You never touch anything till it touches you

and oh  
when you touch me I feel beautiful for you.  
So hold me tight  
tell me you'll never leave my side

stay loving me  
boy  
loving you  
boy  
all the time.

I promise you I'd take you away  
get ready  
get ready !  
I promise you I'd take you away  
get ready  
get ready !

Your lips  
your breath give me the softest caress

and oh  
when you kiss me I'd do anything for you.  
So hold me tight  
tell me you'll never leave my side

stay loving me  
boy  
loving you  
boy  
all the time.

Now  
I  
I've seen you laughing

now  
I  
I've seen you laughing

I promise you I'd take you away  
get ready  
get ready !  
I promise you I'd take you away !

I promise you I'd take you away. Get ready !

I promise you I'd take you away  
get ready  
get ready !  
I promise you I'd take you away  
get ready  
get ready !
