"Inside Lookin' In"

I must be stoned right outta my head
I did not hear one thing that you said
Lately I'm walkin' 'round in a daze
This feeling comes and goes in big waves

I'm on the inside lookin' in
Yea, I'm on the inside that's where I've been

I see one soul just driftin' astray
And I run to chase that demon away
There's me, there's him, there's you and there's us
All by the same name so what's the fuss

I'm on the ...
Here I am on the inside, wearin' thin
Yea, I'm on the insde, lookin' in
I'm on the inside lookin' in
Be careful don't kill the flame
Unless you want to end the game
Be careful don't do too deep
The climb back may be a bit steep

I must be new around this place
I do not recognize one face
Ring in my ears so loud I can't see
Ringin' just like one UXB

[Chorus]
