Ten years passed...
This is my letters
It's not really good
Is for real

I can even give my words together towards no...
Please tell me what are you doing to me
You're digging over my mind
Can't sleep 'cause I'm looking... all night
Sweet lady won't you come close
I'm really need a door so...

Chorus:
Says your love is like, love is like wow
Says your love is like wow
You left me so crazy
I can't believe that I found you babe
No I'll never I will never let go

I can't believe that I found you baby
No I'll never, no I'll never let go
No I'll never let go
I hope you'll believe me when I say
Here is where I wanna be ooh

It's been you were here the world no
There's nothing that can stop us
I go on top like we're rocking my lady Obama
Sometimes you let me speechless all I can say
Love love love love love

[Chorus:]

Sweet lady
Can't believe that I found you baby ooh
Can't believe that I found you baby
