#### LOVE JUNKIE

You tell me what you see  
Especially in me  
You show me how you feel  
Suggesting it's for real  
You say you've been hurt bad  
And that you're really sad  
Then you call my name  
We're in and out again

To keep this love alive x2  
To keep this love alive we would have to be  
Love junkies

She whispers to me please  
Get down upon your knees  
I need you to romance  
Me and my confidence  
It's in the mystery  
Do not addict yourself  
Then she calls my name  
We're in and out again

To keep this love alive x2  
To keep this love alive we would have to be  
Love junkies
