Back stage butterfly floats by,
Fix the face
Smoke a cigarette
And just relax, baby.

Well I know the role by heart
And baby you
Never had no lines to forget

Well life is a stage, so step into the light
And the part that play
Well you're a star
A star in this outrageous night

It's me, Rock-n-Roll Romeo
Meet you babe, Blue Jean Juliet
Let's rock n roll!

Ninety days on the road
And I can fall in love with a silhouette
That don't say much for you baby
Well I ain't no faggot, no, no, no, no
We'll get something staright between us yet
Maybe up in the balcony Juliet

Well life's just a stage
Blinded by the light
And the part that you play, baby
Well you're a star
To me in this outrageous night

It's me, Rock-n-Roll Romeo
Meet you babe, yeah, Blue Jean Juliet
Well the stage is set for Marie Antoinette
And Rock-n-Roll Romeo
From the balcony, all the way to the front row
Rock-n-Roll Romeo
