## "Further"

Visit "[Further](#)" on MotoLyrics.com

Further on a long distant flight  
Faster to a dream out of sight  
I follow my prayer to the target of your heart  
Your picture is in my mind and your mind is on my side

Further I am on my way  
The sky is brighter, the stars are closer  
My empire is made of fire  
With desire, I'm burning away

My speech is flowing, my thoughts are cristal clear  
The nadir of the real, the zenith of one dream  
The universe recreated at the heart of my heart  
A vision is revealed on the screen of my mind

Further I am on my way  
The sky is brighter, the stars are closer  
My empire is made of fire  
With desire, I'm burning away

Further on a distant flight  
Faster to a dream out of sight

We strip down our souls to see the beauty of our all  
No need to an end but a start to a brand new start

Further I am on my way  
The sky is brighter, the stars are closer  
My empire is made of fire  
With desire, I'm burning away
