Sing the same song along the way  
Keep focused through the day  
Take a ride on your mantra  
From your life, have an overall view  
Simultaneously here and there  
Be prepared for what is new  
Put a light on a new world  
Deep rooted in the past  
Link your current thoughts  
When the basis of your Dogma

On and on we keep growing inside  
Hopefully for a long, long time  
Side by side hope and remorse  
Lead us to our realm Inch'Allah

Philosophically negentropic  
Religiously entropic  
The shelter of one thought  
Is a jail for the mind  
Be aware of what you need  
Be a temple of your own...

On and on we keep growing inside  
Hopefully for a long, long time  
Side by side hope and remorse  
Lead us to our realm Inch'Allah

Put a light on a new world  
Deep rooted in the past  
Link your current thoughts  
When the basis of your Dogma

On and on we keep growing inside  
Hopefully for a long, long time  
Side by side hope and remorse  
Lead us to our realm
