On the roots of one thought  
One the edge of one world  
Smell the flavor of glory  
Infused in people's hearts  
Certified and glorified  
Pushed to a higher high  
Crossing desert in a second  
With a single breath..

Surrounded by a nation - demonized  
Against domination - struggling, creating, modeling  
another world  
Courage and obedience - sanctified  
Theatricalization - Of the past, of life, of pain that never  
lasts...

The taste of earth and blood  
Stir up the thirst of life  
In the chaos of the masses  
Lost in Nemesis  
All the call of better times  
That have been once promised  
Respond to a better life  
Of happiness and joy...

Surrounded by a nation - demonized  
Against domination - struggling, creating, modeling  
another world  
Courage and obedience - sanctified  
Theatricalization - Of the past, of life, of pain that never  
lasts...

Surrounded by a nation - demonized  
Against domination - struggling, creating, modeling  
another world  
Courage and obedience - sanctified  
Theatricalization - Of the past, of life, of pain that never  
lasts...
