An angel came and saved my soul
When I couldn't find my way back home
She gave me love
and saved me from this world

There will be no more tears to cry
And no more clouds up in the sky
You wipe away the sorrow
and light the road to follow

There will be no more tears to cry
And no more clouds up in the sky

Chorus

I belong to you, you belong to me
I belong to you, we belong to love

I belong to you

Tonight I laid my eyes on you
It was the night my dreams
'Cause all I ever wanted was you.

I heard you calling in the air
And course my fingers through your hair
Together we are restless
This love we have is senseless

Chorus (2X)

I belong to you

Chorus (2X)
