Okay this is it  
Hold on tight!  
Well since you told me

Yes  
I'm out of control  
We're gonna rock this town

Gonna watch it rattle and roll  
Hold on honey  
Hold on tight!  
It's only money and tonight's the night

In answer to your question - just a hold on tight.

Well I'm in a whirl  
A lucky girl  
Who's found her only treasure

Being without you  
Thinking about you  
Has been my one and only pleasure  
I made my mind up  
Set my sights

I followed you morning  
Noon and night

And since you put my lonely life to flight - hold on tight.

Hold on  
Hold on tight  
Me and you're flying to heaven tonight.  
Hold on  
Hold on tight  
Me and my stick  
Of little dynamite.  
Hold on  
Hold on tight  
I've waited for you all of my life.  
Hold on

Hold on tight

Don't let go  
Just a hold  
Just a hold on tight.

Well the dream machine is rolling now  
You're on board

We're paradise bound  
Never got that far before

Me and you honey  
We're two of a kind

We're heading for heaven in a vertical climb

In answer to your question - just a hold on tight.

Well I'm in a whirl  
A lucky girl...  
Hold on  
Hold on tight

Me and you're flying to heaven tonight...

I made my mind up  
Set my sights

I followed you morning  
Noon and night

And since you put my lonely life to flight - hold on tight.  
Hold on  
Hold on tight

Me and you're flying to heaven tonight...

Hold on  
Hold on tight

Me and you're flying to heaven tonight.  
Hold on  
Hold on tight

Don't let go  
Just a hold  
Just a hold on tight.
