Oh  
Touch me - this is the night -  
Oh  
Touch me - I wanna feel your body -

Full moon in the city and the night was young

I was hungry for love  
I was hungry for fun.  
I was hunting you down and I was the bait

When I saw you there I didn't need to hesitate.

This is the night  
This is the night

This is the time we've got to get it right.  
Touch me  
Touch me  
I want to feel your body

Your heart beat next to mine - touch me  
Touch me now!

Quick as a flash you disappeared into the night

Did I hurt you  
Boy? Didn't I treat you right?  
You made me feel so good  
Made me feel myself

Now I'm alone and you're with somebody else.

This is the night  
This is the night  
...  
Touch me  
Touch me now  
Touch me  
Touch me now!

Hot and cold emotion confusing my brain

I could not decide between pleasure and pain.  
Like a tramp in the night I was begging for you

To treat my body like you wanted to.

Touch me  
Touch me  
I want to feel your body

Your heart beat next to mine -  
'Cause I want your body all the time!

Touch me  
Touch me  
I want to feel your body

...

Touch me  
Touch me  
Touch me - this is the night -  
Touch me  
Touch me  
I wanna feel your body.  
Touch me  
Touch me  
Touch me - this is the night -  
Touch me  
Touch me  
I wanna feel your body.
