Big field flickering lights
No one in sight
We're fighting tonight
Let's start the competition
You know I'm on a mission

Watch you go for the pass
I'm throwing it fast
You think you can last
Do you know what I came for?
The game is what I'm made for

So give it to me, cuz I wanna put it on ya
I'm what ya need, and I'm making it count
I guarantee that I'll only make it harder
If you try to take me down
So give it to three, then I'm blowing on the whistle
Get on your knees and we can wrestle around
I'm what ya need, and baby I'll be the official
Just let me touch you, let me touch you down

No more playing it nice
So kiss it goodbye
I'm taking the prize
I'm born to be the champion
I hope you learn your lesson

One more run on the clock
Is all the we got
And I'll be on top
I'm taking all control now
So do as you are told now

So give it to me, cuz I wanna put it on ya
I'm what ya need, and I'm making it count
I guarantee that I'll only make it harder

If you try to take me down
So give it to three, then I'm blowing on the whistle
Get on your knees and we can wrestle around
I'm what ya need, and baby I'll be the official
Just let me touch you, let me touch you down

Man down, now the game is over
Man up, take another shot
Round 1, comin for another
Round 2, never gonna stop
We do it and do it until we goin over time
Play it over and over because you wanna satisfy
Scream out, now we gettin closer
Scream out, loud

So give it to me, cuz I wanna put it on ya
I'm what ya need, and I'm making it count
I guarantee that I'll only make it harder
If you try to take me down
So give it to three, then I'm blowing on the whistle
Get on your knees and we can wrestle around
I'm what ya need, and baby I'll be the official
Just let me touch you down

So give it to me, cuz I wanna put it on ya
I'm what ya need, and I'm making it count
I guarantee that I'll only make it harder
If you try to take me down
So give it to three, then I'm blowing on the whistle
Get on your knees and we can wrestle around
I'm what ya need, and baby I'll be the official
Just let me touch you, let me touch you down
