3d

A flask I drink of sober tea

While relay cameras monitor me

And the buzz surrounds it does

Buzz surrounds

Buzz surrounds

Liz Fraser

Closed eyed sky wide open

Unlimited girl unlimited sigh

Elsewhere

Indefinitely

Far away

Magnifies and deepens

Ready to sing

My sixth sense peacefully place on my breath

And listening

3d

Keys swing from my hand

Liz Fraser

My ears know that my eyes are closed

3d

Perish thoughts like contraband

I train myself in martial arts

As advertised

I reinforce my softened parts

As advertised

Liz Fraser

See through me little glazed lane

A world in myself

Ready to sing

My sixth sense peacefully place on my breath

3d

Flickering I roam

Liz Fraser

And listening

My ears know that my eyes are closed

Ready to sing

My sixth sense peacefully place on my breath

3d

Flickering I roam

Liz Fraser

And listening

My ears know that my eyes are closed

3d

I see to bolts

For key to locks

No boat are rocked

I'm free to roam

Among dummy screens

And magazines

Liz Fraser

Closed eyed sky wide open

Unlimited girl unlimited sigh

3d

To think that I lay next to you

Wasting time when I could do

A simple job in strip lights

A flask I drink a sober tea

'Till daylight sends me home

Flickering I roam

Liz Fraser

Daydreaming admiring being

Quietly, open the world

I hear the time of the starry sky

Turning over at midnight

Seen through me little glazed lane

A world in myself

Daydreaming admiring being

Quietly, open the world

I hear the time of the starry sky

Turning over at midnight
