Ever since that day that u looked into my eyes I knew i
wanted to be yours forever (hmmm) Every day and
night you're all i think about

I know that we belong together

And here we are in each other's arms

And i'm praying that we never have to part

(chorus)

Ur eyes bright blue as the sky

Deeper than the sea

Warm as the sun

And peaceful as a light breeze

Ur eyes capture me in an instant

And leave me hyponotized

And i get lost everytime

In ur eyes

Sometimes i'm so scared i'll lose this perfect love

My life is tied to urs forever

And since i found you i dont know what i'd do If u and i
werent together (no, no, no, no, no, no)

You give me life in a way that i will never be able to
describe

(chorus)
