Hy are you all in my face
Lately you on frequent myspace
You know I am not the type to low key creep around
You're messing up on your way out

Always in my caller I'd
Looking for a place to catch me
This is crazy
Boy you think we're married
Oh no
I'm just trying to breathe
And you're just all over me

You're oppressing me
Fall back I need some room
You want this thing to work
I need you to do all the necessary things to keep me
But you just keep on pushing me
You're about to barely be my boyfriend

...

Again you're questioning me where about I've been
When I just left before ten
We are so preliminary
All this stress unnecessary
This is crazy
Boy you think we're married
Oh no
I'm just trying to breathe
And you're just all over me

You're oppressing me
Fall back I need some room
You want this thing to work
I need you to do all the necessary things to keep me
But you just keep on pushing me
You're about to barely be my boyfriend.

I don't remember "I do" nor saw a wedding ring
Only a few months in
And I'm ready to leave

...

So what you think we're meant to be
You're just a boyfriend

You're oppressing me
Fall back I need some room
You want this thing to work
I need you to do all the necessary things to keep me
But you just keep on pushing me
You're about to barely be my boyfriend.
