### "Lady Luck"

If lady luck is on my side  
She will be with me tonight,  
I barely made this month's rent,  
Save a lucky hand of cards  
I'll think of something next month.  
Four flights down to the street  
To a place we agree to meet  
And she is there waiting so very patiently

Tonight just celebrate luck,  
Tonight for sure.  
So I try to live every second of it,  
So as not to forget  
How I, how I felt.

Always could make you laugh  
And I found comfort in that  
Old stereo's  
Set fire to our ears

Inspired us to put down our nervousness  
And forget our fears  
Got a bottle full of rum,  
We won't stop until we're done  
And we forget  
You're leaving

Now you're getting on a plane  
You'll arrive in Spain,  
Such a foreign place  
Where they speak in such a foreign tone  
It's all foreign to me.

Tonight we'll say goodbye  
Tonight for sure  
So I try to take a picture  
With my mind  
So as not to forget  
How beautiful, how beautiful,  
You are.
